STEPS TO REMEDY IMPLEMENTATION IN ACCORDANCE WITH NCP

- PRPs submit supplement to SFS to take into account results of additional work.
- EPA consults with NRRB about Proposed Plan.
- EPA issues Proposed Plan which identifies changes to 2008 ROD remedy.
- Notice of public comments on Proposed Plan is issued and public meeting held.
- EPA considers public comments and issues amended ROD.
- EPA resumes negotiations of Consent Decree with PRPs.
- DOJ lodges negotiated Consent Decree with Court, publishes notice of public comment period.
- EPA/DOJ consider public comments and if settlement still deemed in the public interest, DOJ files motion to enter Consent Decree.
- Assuming Court enters Consent Decree, implementation of the remedy begins.
